

iREJU

SLIM SERUM

Natural & safe fat dissolving

iREJU SLIM SERUM

USAGE

Decomposes, dissolves and composts body fat effectively with rare swelling

PACKING

10mL x 3 vials
3 vials x 1 box

INDICATIONS

BENEFITS

- Quick treatment
- Natural ingredients
- Various applicable areas
- Skin hydration

MAIN INGREDIENTS

- Arginine
- Acetylcholine
- L-Carnitine
- Hyaluronidase
- Riboflavin
- Pyridoxine
- Aesculus Hippocastanum Extract
- Licorice Root Extract

Aesculus Hippocastanum Extract

It boosts microcirculation, reduces swelling, and helps the body remove released fat more effectively. It also strengthens capillaries and provides anti-inflammatory, soothing effects for a smoother, firmer look.

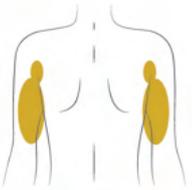

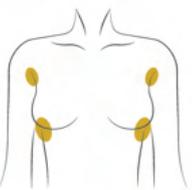

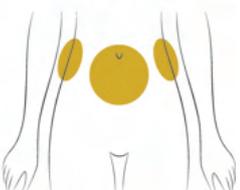

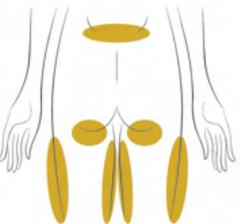

Licorice Root Extract

It reduces inflammation, improves lymphatic drainage, and helps decrease swelling and water retention. It also brightens the skin, soothes irritation, and supports a smoother, more even appearance after treatment.

HOW TO USE

Mix iREJU SLIM SERUM 10cc with Normal Saline 1 cc

	Inner Thighs				
	Outer Thighs				
Calves 	Calves	50~100 cc	0.2~0.5 cc	0.5-1.0 cm	Total 3 times every 20 days

CAUTIONS

- ❖ For people with existing skin problems such as acne, the treatment should be performed only after the skin has fully healed.
- ❖ If there are any hygiene issues during the procedure, bacteria can enter the skin and cause inflammation, so proper care is essential.

CAUTIONS

- ❖ It is prohibited to use chemical treatments such as hair dye after the procedure
- ❖ Refrain from applying any decorative cosmetics to the treated area for 4 hours
- ❖ As the treatment requires a regeneration period, the visible effect usually appears about one month after the first session
- ❖ Redness and a feeling of warmth may occur after the procedure, so it is necessary to soothe the skin with a cold compress or cold pack
