

# ACNERO

The best way for acne

## THE BEST SOLUTION FOR ACNE PRONE AND DULL SKIN

- Restores and protects damaged cells, supporting healthier skin regeneration.
- Helps acne marks fade and return to a more normal, even skin condition.
- Reduces inflammation and soothes irritated skin using safe, clinically backed ingredients.
- Effectively removes excess sebum and dead skin cells, helping to prevent future breakouts.
- Strengthens the skin barrier and improves overall texture for a clearer, smoother complexion.

### PACKING

3mL x 5 vials  
5 vials x 1 box

Before

After 1 month  
(MTS roller)

- Minimizes irritation while helping address the underlying triggers of acne
- Enhances skin softness and elasticity by supporting healthy skin cell activity
- Purifies the pores by clearing excess sebum and dead skin cells, promoting a clearer and more balanced complexion

Fast Skin Regeneration

Safe & Easy to use

Effective Sebum Remover

## HOW TO USE

### Treatment Tool

- Meso-gun (9 pins. 32G)
- Dermapen
- MTS roller

### Usage

1 shot:  
0.03~0.04  
mL

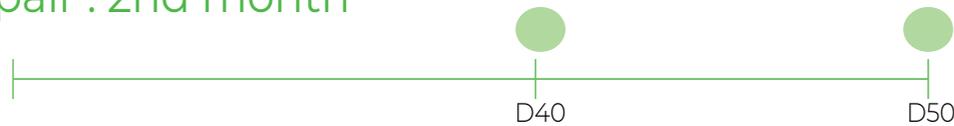

## TREATMENT PHASES

### Initialize : 1st month

● = 1 session

### Repair : 2nd month

### Maintain : 3rd month

## MAIN INGREDIENTS

- Niacinamide
- Glutathione
- Allantoin

- Protaetide
- Phloretin
- Melaleuca Alternifolia Extract
- Tetrapeptide-44
- $\alpha$ -Lipoic Acid

- PNP Stable EGF
- PNP Stable bFGF
- Dermacurin
- GHK-Cu

## PNP Stable EGF

- Speeds up skin regeneration, helping damaged or inflamed areas recover faster.
- Reduces post-acne marks and discoloration by promoting healthy cell turnover.
- Strengthens the skin barrier, making the skin more resilient and less reactive.
- Improves overall skin texture, giving a smoother and more refined appearance.
- Helps minimize redness and irritation caused by breakouts.
- Supports wound-healing processes, beneficial for skin recovering from acne.
- Non-comedogenic - won't clog pores or worsen acne.

## Protaetide (Hexapeptide-69, Tryptophanyl Dipeptide-47, Amide)

- A bioactive peptide booster derived from *Protaetia brevitarsis* larvae with strong skin-revitalizing properties.
- Non-toxic and shown to be effective against P. acnes, helping reduce acne-related inflammation.
- Activates epidermal cells to support healthier skin turnover and recovery.
- Helps suppress elastase activity, protecting the skin's structure and preventing premature degradation.
- Contributes to improved skin clarity, resilience, and overall balance.

## Allantoin

- A soothing and skin-protective ingredient known for its ability to calm irritation and reduce redness.
- Promotes gentle exfoliation, helping remove damaged skin cells and support smoother regeneration.
- Enhances moisture retention by strengthening the skin barrier and preventing dryness.
- Speeds up wound-healing processes, making it beneficial for acne-prone or sensitized skin.
- Helps soften rough texture and improve overall skin comfort and clarity.
